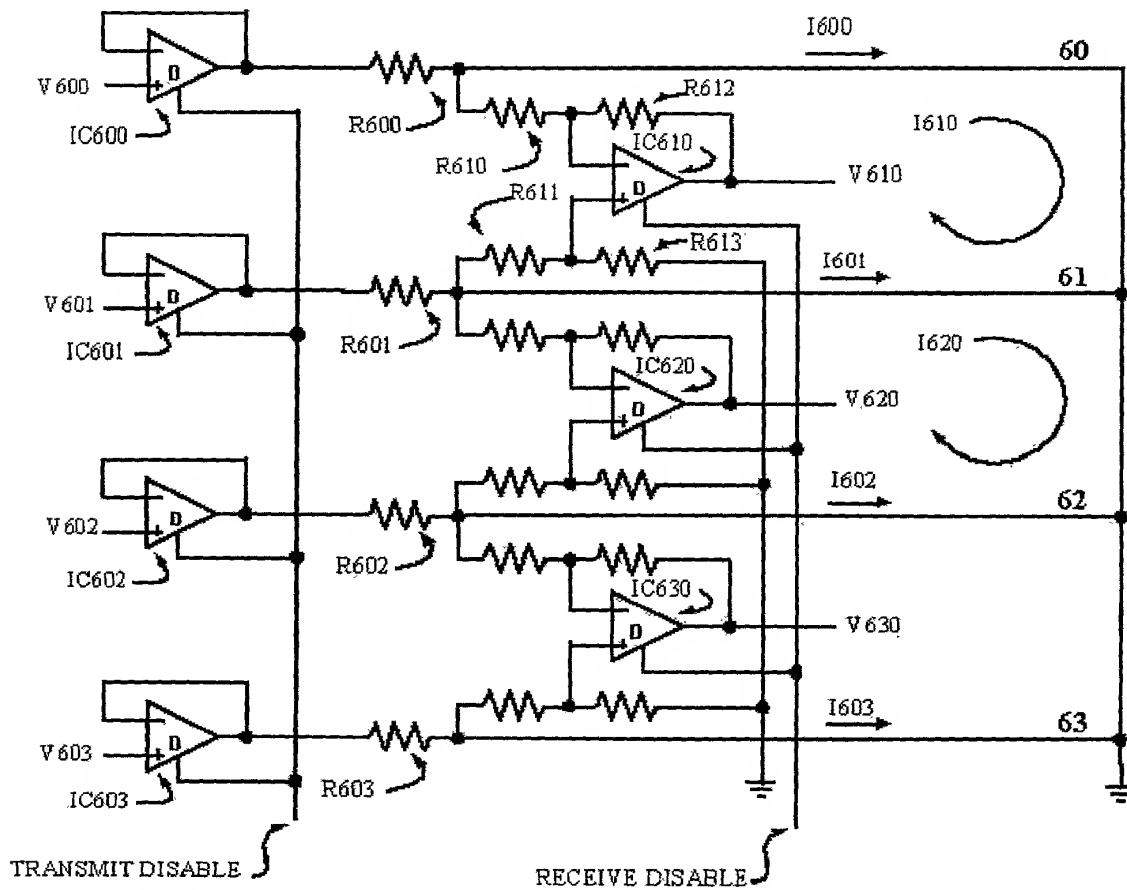

FIG. 6

Fig. 7

FIG. 8 is a schematic diagram of a grid structure 1000. The grid structure 1000 includes a grid 1001, a top edge 1002, a bottom edge 1003, a left edge 1004, and a right edge 1005. The grid 1001 is defined by a series of horizontal lines 1006 and vertical lines 1007. The grid 1001 is shown as a rectangular area with a grid of lines. The top edge 1002 is a horizontal line at the top of the grid. The bottom edge 1003 is a horizontal line at the bottom of the grid. The left edge 1004 is a vertical line on the left side of the grid. The right edge 1005 is a vertical line on the right side of the grid. The horizontal lines 1006 are parallel to each other and extend across the width of the grid. The vertical lines 1007 are parallel to each other and extend across the height of the grid. The grid 1001 is shown as a rectangular area with a grid of lines.
